BUSINESS DESCRIPTION

Our client company is a nationally recognized, ISO 9001- 2000 and Energy Star certified, trademarked, domestic manufacturer of PC's, Desktop, and Notebook computers. Operating from a 30,000 square foot facility, all fabrication, service and technical support are performed "in house" in the United States. The client has a direct OEM relationship with Microsoft and has achieved the designations for Certified Partner and Authorized Education Reseller. The client is also designated an Intel Premier Partner: Government/ Education Specialist putting the company in the top one percent of system builders in the country.

The company is a GSA schedule holder for manufacturing and supplying PC's to the federal government. Tremendous opportunity exists to capitalize on this contract. The company is limited by capital constraints to exploit this situation. The company also holds the OGS schedule for NY York Sate, a BPA for the Air Force and a blanket BPA for GovWorks and the Department of the Interior. These new relationships open up a \$53 Billion dollar market.
